Thanks to each of you (and your staff) for participating in the Shaky Ground exercise which tested various facets of our written emergency response plans (departmental and across the university). The CSOT Leadership Team has created an on-line survey to gather your feedback on the effectiveness of this experience. The first part of the survey discusses how you will use this information to update your plan or what changes you'd recommend for university emergency response planning. All ideas and comments are valued Although we're limiting the feedback to 1 person from each department.

Please click on to the following site for the online survey:

<http://infopoll.net/live/surveys/s33814.htm>

The hope is that by July 17th the summary of all the responses will be posted to the Shaky Ground website along with a list of recommendations / action items which may be further discussed by CSOT or forwarded on to ECMT.

The exercise notes are now on the web site (bottom left column) --- click on the last 2 postings. The web address is: <http://www.spu.edu/depts/security/CSOTShakyGround.htm>.
