The following lenders provided alternative (private) loans to SPU students in 2008-09, 2009-10 and 2010-11. SPU does not recommend that you borrow from any specific lender or lenders; we do recommend that you carefully compare your alternative loan options after exploring your federal loan eligibility. We encourage you to carefully research the terms and conditions of any loan by contacting the lender. **SPU will certify an alternative (private) education loan from any lender you select.**

Check with the lender regarding eligibility requirements for the following purposes. The data below indicates only that one or more students used a loan from that lender for the purpose indicated.

- Less than half-time enrollment
- Non-matriculated
- Past due balance

IMPORTANT NOTICE REGARDING DISBURSEMENT: Once you have been approved, it may take an additional 30 days before funds are received by the school. Please complete the loan application process by 30 days prior to the start of your enrollment to avoid an SPU student account late fee.
