Seattle Pacific
UNIVERSITY

Mathematics (5-12) Required Courses

The following courses are offered on campus at SPU,
but will be accepted from any accredited college:

Course #	Title of Course	Credits	Format
MAT 5505	Calculus	4	SPU Campus
MAT 5506	History of Mathematics	4	SPU Campus
MAT 5504	Algebra/Discrete Math	4	SPU Campus
MAT 5530	Probability and Statistics	4	SPU Campus
MAT 5550	Euclidian & Non-Euclidian Geometry	4	SPU Campus

The following courses must be taken at SPU:

EDMA 5357*	Math Methods	4	SPU Campus/Regional
EDCN 5730**	Field Experience/PPA	5	Arranged Available Autumn, Winter, Spring quarters
TOTAL CREDITS FOR REQUIRED COURSES		29	

*It is advised that a student would complete the Methods course after completing the courses from the first group. The Methods course involves applying the content covered in those courses.

**The WEST-E test must be PASSED prior to enrolling in the Field Experience/PPA. (SPU must receive your passing score before you can be registered.) A student has the option (if available) to take both the Methods course and the Field Experience simultaneously, and in this case, WEST-E still must be passed prior to enrollment in the Field Experience.
