University Hospitals and Clinics; University of Missouri Health Sciences Center Category: Medical Staff-Psychology, Health Psychology and Neuropsychology

CLINICAL EXPERIENCE

February 2001

To
Present

Evergreen Hospital Medical Center
Evergreen Neurosciences Institute
Kirkland, WA

Full Time clinical/neuropsychologist for a medical center and rehabilitation center with an emphasis on diagnosis and treatment of individuals with diverse neurological conditions. Support three specialty programs of Multiple Sclerosis, Parkinson's disease, and Stroke/TBI. In addition to clinical neuropsychological assessment, provide individual, family, and rehabilitation focused psychotherapy, as well as addressing pain management, and psychological preparation for surgery /neurosurgery. Coordinate treatment with our neurologist, psychiatrist, and speech/occupational/physical therapists. Supervise doctoral level trainees and psychometrists.

2004
to
Present

Adjunct Professor: Graduate Clinical Psychology Program
Seattle Pacific University
Seattle, WA

Lecturer part time, teaching doctoral level classes, one quarter each year, regarding cognitive assessment.

September 2000
to
Present

Medical Psychology and Neuropsychology Private Practice
Private Practice

Bellevue, WA (1611 116th St NE, Ste 128) (206) 915-9025
Part time practice with focus on the diagnosis and treatment of neuropsychological disorders associated with aging and brain dysfunction as well as general clinical psychological assessment.

September 1999
to
August 2000

University of Missouri School of Medicine
Department of Physical Medicine and Rehabilitation
Columbia, MO

Second Year of Post-Doctoral Residency-Full Time
Clinical Assistant Professor of Health Psychology and Neuropsychology with continued postdoctoral supervision by Brick Johnstone, Ph.D., ABPP, meeting division 40 guidelines.

Faculty appointment, in addition to full time residency supervision in neuropsychology. Consulted with medical center physicians and worked closely with the rehabilitation treatment team. Attended neurology and psychiatry rounds. Regularly consulted for the Division of Vocational Rehabilitation and Disability Determinations in regards to neuropsychological issues. Trained with psychology and neuropsychology interns, postdoctoral fellows, and medical students/residents.

September 1998
to
August 2000

University of Missouri School of Medicine
Department of Physical Medicine and Rehabilitation
Columbia, MO

Neuropsychology Postdoctoral Fellowship, meeting Division 40 guidelines.

Supervisor: Brick Johnstone, Ph.D., ABPP

Primary duties included conducting neuropsychological evaluations for both inpatient and outpatient populations at Rusk Rehabilitation Center/Department of Physical Medicine and Rehabilitation. Other duties included neuropsychological research, psychotherapy, patient and family education, resource development, and supervision of psychology interns.

September 1997
to
August 1998

Western State Hospital
Neuropsychology, Legal Offender Unit, Adult Specialty Ward
Tacoma, Washington
APA approved pre-doctoral internship. Completed Aug 30, 1998

Neuropsychology (strong forensic focus) training under the supervision of Dennis Kelly, Ph.D. Conducted competency, sanity, and diminished capacity evaluations for the Washington court system. Completed rotation on the ward for treatment refractory psychosis patients. Conducted personality and intellectual assessments. Taught anger management classes and provided psychotherapy services.

July 1995
to
August 1997

Emory University School of Medicine
Center For Rehabilitation Medicine
Neuropsychology Division
Atlanta, GA

Predocloral Practicum in Clinical Neuropsychology
ASPP Neuropsychology practicum and subsequent employment.
Supervisors: Tony Stringer, Ph.D., Clinical Neuropsychologist
Kirven Weekley, Ph.D., Clinical Neuropsychologist

Responsible for neuropsychological and personality testing, clinical interviewing, report writing, and patient feedback sessions. Served an inpatient and outpatient population of adults impacted by cerebrovascular accidents, traumatic brain injuries, and other CNS injury. Attended and presented in weekly clinical case conferences. After July 1996, provided psychometry services for both Emory University and Dr. Weekley's private neuropsychology practice.

September 1996
to
June 1997

Clayton County Community Mental Health Center
Jonesboro, GA.
ASPP Psychotherapy Practicum
Supervisors: Charlie Dillon, Ph.D., Clinical Psychologist
David Morgan, Ph.D., Clinical Psychologist

Provided individual psychotherapy services to individuals with varied psychopathology and emotional concerns. Led two weekly group psychotherapy sessions, one with an anger management focus and the other serving women in abusive relationships.

February 1993
to
May 1994

Inner Harbour Hospital

Douglasville, GA

Psychotherapist, specialist in Experiential Therapy

Supervisor: Jesse Hawk Ph.D., Clinical Psychologist

Participated in the design and opening of the facility's first Adolescent Partial Hospitalization Program. Clinically privileged from May 93 to May 95. Participated in the formulation and review of each client's treatment plan. Responsible for after-care planning. Ropes challenge course instructor for group and family experiential therapy sessions. Planned and executed experiential therapy outings

June 1992
to
December 1992

Inner Harbour Hospital

Douglasville, GA

GSU, M.S. Counseling Practicum and Internship

Supervisor: Marilyn Poff, LCSW

Conducted approximately 100 hours of individual therapy and 70 hours of group therapy in an residential adolescent setting . Participated in over 5 hours of clinical supervision, weekly. Observed and co-led over 50 hours of family therapy sessions. Responsible for writing psycho-social histories and treatment plans.

April 1992
to
June 1992

Victim Witness Assistance Program

Atlanta, GA

GSU, M.S. Counseling Practicum

Supervisor: Aurelia Sands-Belle, MS

Counseled surviving family members of homicide victims and co- led a support group. Educated and assisted battered victims within the Fulton County court system. Acted as a liaison between the judge and the victim or defendant.

February 1989
to
November 1990

Inner Harbor Hospital
Douglasville, GA
Mental Health Assistant

Provided supervision and para-professional counseling services for adolescents diagnosed with acute psychopathology. Conducted daily community meetings, co-led group therapy sessions, and helped organize and instruct wilderness based experiential therapies. Received weekly individual clinical supervision from psychologists and psychiatrists.

1998
to
Present

University of Missouri, Department of PM&R
Collaborator on Missouri Model Traumatic Brain Injury Study. Responsibilities include collection of data, training local mental health professionals about brain injury, and presenting preliminary findings to community groups.

1998
to
2000

University of Missouri, Department of PM&R
Projects include studies on the appropriate interpretation of memory and intelligence results in relation to premorbid estimates of functioning, porencephaly, hippocampal damage, and measures of distress following a TBI.

1997
to
1998

Atlanta Veteran's Affairs Department of Rehabilitation Research and Development, Emory University, & GSPP.
Primary researcher in a study examining the efficacy of the Useful (Functional) Field of View apparatus to enhance compensation for individuals suffering from homonymous visual field loss as a result of brain damage.

1997

Emory University & GSPP
Study to norm a monochromatic version of the Wisconsin Card Sorting Test for use with color blind individuals.

1986
to
1987

University of Georgia
Research assistant for a team of clinical psychology Ph.D. candidates led by Amos Zeichner, Ph.D. The study examined autonomic arousal and time perception of participants classified as Type A or Type B personalities. Duties included operating a polygraph and related equipment, conducting the experimental protocol, recording behavioral observations, managing data for statistical analysis, and coding interviews tapes.
