

## Submit Content to the Community Section

Create podcasts, publish portfolios or original music, and more! Students, faculty, and members of the Seattle Pacific University community may submit audio and/or video content to be posted in the Community section of iTunes U. We have created this section to be an open, creative forum for members of the SPU community to come together, express themselves, distribute their works, and share in each other's works.

Content may be submitted in-person to the Instructional Technology Services office on the lower level of the SPU library. If you have any questions, email us at [iTunes@spu.edu](mailto:iTunes@spu.edu). For information about having your content recorded, contact [its@spu.edu](mailto:its@spu.edu). Please do not submit content as an email attachment. Content is subject to review before posting.

**Note:** Course-related and faculty artistic productions will be placed in **The Arts** section.
